

Amendment

23th Meeting (Covid Cell Committee)

MANIPAL UNIVERSITY
JAIPUR

Date:14, Oct 2021

Amendment on decision taken in 23rd Covid Cell Committee

For the students of the School of Computing and Information Technology and the Department of Computer Applications:

- The students who cannot report to the university for physical mode of lab classes, may opt for lab courses in online mode.
- For the concerned Departments, lab courses will be held in hybrid mode only during Nov 17th to Dec 10th, 2021.

For the students of all other departments (with lab courses in the programme):

- The lab experiments involve physical setups/processes/machines and thus, cannot be easily virtualized. Hence, the university has decided to run the lab courses only in offline/physical mode with a flexibility to make a choice of time slot for attending the labs sessions.
- If any student is unable to attend lab courses in physical mode during Nov 17th to Dec 10th 2021, they can complete the same in January 2022.
- The departments are running the lab courses in succession so that the student can benefit the most from the opportunity & physical resources of the labs.

Note: These changes are only for Lab classes the End Term Examination will be held only in physical mode as per the previous mail.

With Regards

Dr Ajay Kumar

Director, Academics

Professor, Department of Mechatronics
