REPORT OF EXPERT LECTURE & DESIGN REVIEWS ON 12th Oct 2019

SUBJECT: Architectural Design V - AR1501

SEMESTER – Fifth

Faculty Incharge: Dr. Swati Dutta & Ar. Mohd. Nauman

Intent: To familiarize students to the Structures and Services essential in a Hospital and assess the design proposals developed as part of Architectural Design - V coursework

An expert lecture and design review by **Prof. (Dr.) Anil Dewan** from **SPA, New Delhi** was organized for the Third Year B.Arch students on Saturday, 12th October, 2019. Prof. Anil Dewan has actively worked in the creation of Healthcare Infrastructure Standards for the Bureau of Indian Standards. He is a distinguished fellow of the Institute of Hospital Engineering. He has also worked with the World Health Organisation and the World Bank on Healthcare projects.

Learning Outcome: Students were able to understand and appreciate the design principles, linkages and interrelationships between the different areas of the hospital through the course of their design reviews. In addition they were able to gain knowledge about the various mechanical and engineering services that are essential for the efficient functioning of complex service oriented buildings after attending the Expert Lecture.

Prof. (Dr.) Anil Dewan and Prof. (Dr.) Madhura Yadav interacting with Third Year Students of SA&D
