Report on Webinar

Department of Languages organized a webinar on **Driving away the Monotony of Online Teaching and Learning in English Classes** on **7 July 2021** by resource person Dr Sanjay Arora began the session with brainstorming with participants: students and faculty members separately. Brainstorming session focused on parameters of acceptability on digital tools. Further session focused on the issues of expectations of faculty and students in digital era. Professor Arora expressed that often it happens web2.O classes get monotonous and teacher and instructor both feel disconnected to instructions given and received. Digital classrooms require a clear plan of CBI. Content Based Instructions.

Professor Chaudhary promised to develop such instructional designs for students of MUJ to felicitate the learning outcomes of the students.

Event was attended by 66 participants including students from MUJ.
