## 1. Introduction of the Workshop:

The two-day workshop on Architectural Designing and Model Making Workshop in 'Concepts of Computational Design and Digital Fabrication' aimed to acquaint students with the application of computational strategies to design process. It intended to enhance the traditional process of solving design problems by encoding design decisions using a computer language.

## 2. Objectives of the Workshop:

- Understanding the fundamentals of Computational Design and identifying parameters those influence built form and performance.
- Basic application of computational thinking to generate and iterate forms/functions.
- Application and analysis of iterative forms/functions in real life.

## 3. Beneficiaries of the Event:

- UG Students (Architecture, Design and Allied Fields)
- PG Students (Architecture, Design and Allied Fields)
- Research Scholars
- Academicians and Industry Professionals

## 4. Details of the Guests:

**Ar. Pritam Lenka** is currently an Associate Professor at Sushant School of Design, Ansal University, Gurugram. He is a passionate academician with a strong bent towards architectural research. After gaining 4+ years of industry experience, he completed his Masters program in 2012 from the prestigious Barcelona Institute of Architecture and has been into academics since then. He also likes to dab in competition projects and freelance work on and off to keep himself updated with hands-on project experience.

Ar. Lenka provides training in educational institutions on computational architecture and has been conducting workshops to create awareness for this new mode of studies.

His specialties include:

- Expertise in computational architecture
- Strong communication and presentation skills
- Practical approach while adhering to concepts
- Strong Ability to connect with and relate to students
- Dynamic team player and an Effective speaker

## 5. Brief Description of the event:

School of Architecture and Design conducted a two-day workshop on ‘**Concepts of Computational Design and Digital Fabrication**’ to acquaint students, researchers, academicians, and professionals with the application of computational strategies to design process. The workshop intended to enhance the traditional process of solving design problems by encoding design decisions using a computer language.

The workshop was held in **online mode** (MS Teams) from **24<sup>th</sup> to 25<sup>th</sup> January 2022**. The event began with an inaugural session on 24<sup>th</sup> January 2022 at 10:00 am. Prof. Sunanda Kapoor, Head, SA&D welcomed the participants, guests and dignitaries which was followed by Prof. (Dr.) Madhura Yadav, Dean, Faculty of Design addressing the session. Thereafter, the workshop Expert, Ar. Pritam Lenka was introduced to all the participants. The two day workshop was rigorously conducted by the expert. Students were acquainted and trained in software on Rhino and Grasshopper and hands-on exercises were introduced in groups to generate and iterate 3D models using the concepts of logical coding. The students enthusiastically participated in the workshop.

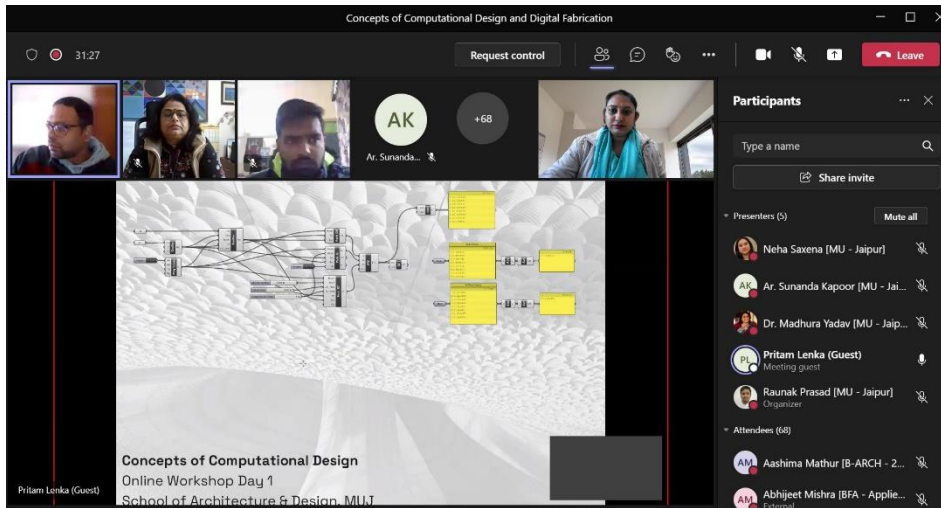

Following were the expected outcomes:

- Be familiar in handling Rhino and Grasshopper (Evaluation version) as a basic tool for parametric design.
- Work with predefined grasshopper scripts to understand the basic approaches to influence building parameters through logical codes.
- Prepare complex forms to understand the concept of Nesting.
- Critically appreciate the underlying principle of Computational Design

**About the University**  
The Manipal Education Group, with its heritage of excellence in higher education for over 67 years, launched Manipal University Jaipur (MUJ) in 2011. MUJ is affiliated by University Grants Commission, Association of Indian Universities, Council of Architecture, Bar Council of India and All India Council of Technical Education. MUJ is the first university in the state of Rajasthan, accredited as A+ (3.28) grade by NAAC. The university offers courses in different disciplines like Architecture, Interior Design, Fashion Design, Applied Arts, Engineering, Management, Hospitality, Humanities & Social Sciences, Journalism and Mass Communication, Basic Sciences, Law, Business & Commerce.

**About the Programme**  
The two-day workshop aims to acquaint students with the application of computational strategies to design process. It will help to enhance the traditional process of solving design problems by encoding design decisions using a computer language. The workshop shall be followed by fabrication and exhibition of a parametrically generated form on human scale enabling one to experience the geometrical space created. The fabricated structure shall be installed within the MUJ campus. Shortlisted models will be exhibited at MUJ and given due credits.

**Objectives**

- Understanding the fundamentals of Computational Design and identifying parameters that influence built form and performance.
- Basic application of computational thinking to generate and iterate forms/functions.
- Application and analysis of iterative forms/functions in real life.

**Who can attend**

- UG & PG Students (Architecture, Design and Allied Fields)
- Research Scholars
- Academicians and Industry Professionals

**Registration**

### INAUGURAL SESSION | 24<sup>TH</sup> January 2022

Start Time	End Time	Details	Duration
10:00 AM	10:02 AM	Welcome Address by <b>Prof. Sunanda Kapoor, HoD, SA&amp;D, Manipal University Jaipur</b>	02 Minutes
10:02 AM	10:07 AM	Address by <b>Prof. (Dr.) Madhura Yadav, Dean, FoD, Manipal University Jaipur</b>	05 Minutes
10:07 AM	10:09 AM	Introduction of Expert by <b>Ar. Neha Saxena, Assoc. Prof., SA&amp;D, Manipal University Jaipur.</b>	02 Minutes

### DAY-WISE SCHEDULE

Day/ Date	Time	Topic/ Session
Monday/ 24-01-2022	10:10 am – 5:00 pm	Introduction to Rhino & Grasshopper Interface
		Exercises to understand algorithms and flows - Foundation of computational thinking
		Logical Modelling with Grasshopper scripts (Technical Terms – Lists & Data Trees)
Tuesday/ 25-01-2022	10:00 am – 5:00 pm	Modular Approach in Design Methodology – Formal Analysis
		Aggregation and Iterations + Export Formats.
		Final Presentation Boards composition.
