Summary

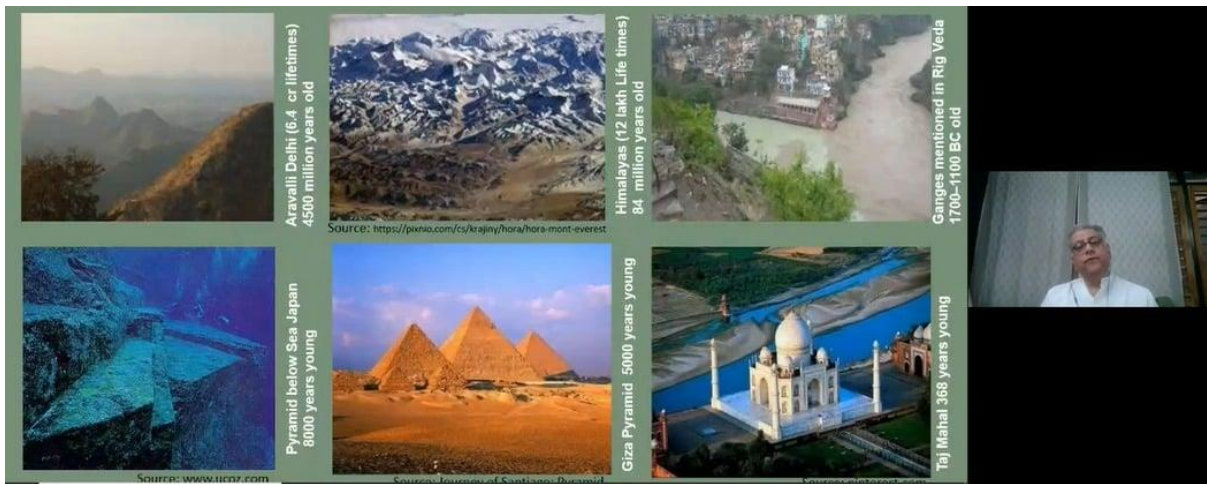

The guest speaker, Ar. Akshay Kaul, an expert in landscape design and our Mentor at SA&D, for the M.Arch – Landscape Architecture program. On the occasion of the World Environment Day, he reiterated the need for architects to understand the context they are designing in, wherein, context is not just by virtue of the site or material, but also including the local people and creating opportunities of livelihood for those in the region. In a very candid yet inspiring session, Ar. Akshay Kaul expressed the importance of being human and humane, which is one of the key philosophies behind the M. Arch Programme, he has helped envision and realize here at Manipal University Jaipur. He further encouraged attendees to reconsider their roles as architects and designers, as he rightly said that every person's journey is different, but the goal is the same - being environment responsive and responsible. This was a well-attended and received webinar, which opens further opportunities for aspiring landscape architects to understand the nuances of their field.

Webinar was co-ordinated by Akshay Gupta and supported for drafting post event news by Ar. Pushkala
