

Workshop on “Patwa Craft”

Fashion Design Department

SD&A, FOD, MUJ

23rd February, 2023

The Department of Fashion Design at Manipal University Jaipur organized a workshop on Patwa craft on 23rd Feb 2023, where fashion design students were given the opportunity to create jewelry pieces using beads and threads through the craft. Patwa craft, a traditional folk-art form that originated in West Bengal, involves creating intricate designs on cloth, paper, or canvas using natural pigments and dyes.

The workshop was conducted by an experienced artisan who had been practicing Patwa craft for several years. He demonstrated the various techniques involved in the craft, including how to make intricate designs using beads and threads.

The students were then given the opportunity to create their own jewelry pieces using Patwa craft. They were provided with a variety of materials, including beads, threads, and natural pigments. The artisan guided them through the process, helping them with any difficulties they encountered.

The fashion design students were excited about the prospect of incorporating Patwa craft into their designs. They were fascinated by the vibrant colors and intricate patterns that they could create using this craft.

At the end of the workshop, the students had created a range of beautiful jewelry pieces, including necklaces, bracelets, and earrings. The workshop not only taught the students about a unique and fascinating art form but also in encouraging them to incorporate traditional crafts into contemporary fashion design.
