### Children's Psychology – Understanding an approach to Kindergarten Design

Manipal University Jaipur's Department of Interior Design organized a webinar on Illuminating Interiors on 7th September 2020 from 11am onwards. Understanding Child psychology is an essential need for creating a wholesome and well-developed kindergarten. It is through this understanding that students can create better design and responses for child centric design. The speakers are from versatile fields a doctor, and a kindergarten principal, both of whom reflected upon their personal experiences.

The image shows a Zoom webinar interface. The top portion is a presentation slide titled "HISTORY AND PERSONALITIES" in a yellow box. The slide contains two bullet points:

- **JAMES MARK BALDWIN** : nature and nurture interact to produce development outcomes
- **FREUD** : personality has three stages : ID (birth) (meet basic needs) / EGO (infancy) (deals with reality ,meets basic desires in a way thats socially acceptable) / SUPEREGO (3- 6 years ) (adding morals).

To the right of the text are two black and white portraits: the top one is of James Mark Baldwin, and the bottom one is of Sigmund Freud. Below the slide is a Zoom participant bar with icons for +29, KP, KG, ST, RH, MJ, AM, PP, KK, AS, SS, AJ, U, RJ, and M. The bottom portion of the image shows a video call grid with three participants: RJ (Richa Jagatramka) in the top left, M (Manish Jain) in the top right, and MG (Manish Jain) in the bottom left.
