## About SV-TDFS 2022

A technology startup is a company which not only solve these everyday problems but also improvise and uplift our human resources, empowering them to get better skills personnel and make them entrepreneurs to solve more problems or solve it in a better way. So, keeping in view the needs and demand, First International Conference on Startup ventures: Technology Developments and Future Strategies (SV-TDFS 2018) was successfully organized in the year 2018 at Manipal University Jaipur. The proceedings of the conference were published in the Scopus Indexed IOP Conference Series: Materials Science and Engineering.

Moving forward, the second version, SV-TDFS 2022 will be organized 19 & 20 May 2022 at Manipal University Jaipur in hybrid mode. The 2nd International Conference on Startup ventures: Technology Developments and Future Strategies will provide an international open forum for the researchers, academicians, practitioners, startup ventures and technocrats in academia as well as in industries from different parts of the world to interact, exchange concepts, prototypes, innovative research ideas and share the outcomes of their research work which could especially contribute to the academic arena and further benefit the business, industrial community, and the society. The technical program of the conference would include keynote, plenary and invited lectures by renowned researchers from all over the globe.
