

Students Testimonials:

<p>Manipal University Jaipur has been a great contributor to the development of my personality. During my bachelor studies at Department of Mechatronics, I have acquired valuable skills which prepared me for my career in uncertain times. Recently, I have finished my MSc. in Supply Chain Engineering and Management from Jacobs University focusing on novel topics in areas such as blockchain. I would like to thank my teachers at MUJ for their unconditional support and motivation.</p>	 <p>Aditi Ailavajhala Batch of 2013-2017</p>
<p>Mechatronics Department of Manipal University Jaipur has played a vital role in building my career, from helping me score a pretty amazing Research Project in Germany to getting selected to a prestigious university in Germany, the faculty members have always supported me in all ways possible. I am glad to call myself an alumni of MUJ</p>	 <p>Krut Mehta Batch of 2014-2018</p>
<p>It was a great experience to educate juniors from my alma mater in the field of R language and machine learning. I would like to thank the faculties of Mechatronics department and the entire team of IEI Mechatronics for such a well organized arrangement and wish them all the best for their future endeavors.</p>	 <p>Hanoz Patel Batch of 2014-2018</p>
<p>The Department of Mechatronics is one of the most up and coming faculties not only in MUJ but across the whole country. From a robust course structure to an ever adaptive set of faculty members, who thrive on the input of the students, this department is quick to adapt to the needs of today and educate on the technology of tomorrow. I have had the immense pleasure of working and studying under such loving and caring faculties and hope to be a part of the department legacy in the future as well.</p>	 <p>Rajdeep Mukherjee Batch of 2014-2018</p>
<p>He cracked the Mitacs Globalink Research Internship 2021 hosted by MITACS, Canada. He is an incoming Mitacs GRI'21 at Lakehead University, Thunderbay, Ontario and will conduct research under the guidance of his Canadian host professor on "Internet of Things: Secure Protocols". MITACS is a national, notfor-profit research and training organization dedicated to advancing collaborations between industry, academia and government in Canada</p>	 <p>Akshet Patel 3rd Year</p>

Started his own merchandising business early this year in the month of January. He has started small but have partnered with famous YouTubers to sell their merchandise. The business is still in its early stages and he is planning on taking more steps for scaling the business.
