A report on

Expert Session on

“A Discussion on Economic Outlook”

23rd June 2022

Introduction of the Event

The present status of our economy and where it is heading in future holds an important criterion in decision making in management. Economic Outlook is the solution to the requirement of reliable data, independent analysis and short to medium-term projections on the Indian economy. The service brings together time-series of over half a million indicators from several official and reliable sources. These are well organized and can be accessed easily to meet your regular requirements of economic data. Economic Outlook presents projections five years ahead. It is a comprehensive service which provides a complete picture of the past, the present and the future of the Indian economy.

Objective of the Event

The basic objective of this session is to understand the Economic Outlook resource, so that we can use the economic indicators of Indian economy for the benefit of our teaching & research.
