“Energy storage Materials-efforts at Hiroshima University”

Coordinator of the Event: Dr. Sushil Kumar Jain

Report of Invited Talk

Dr. Ankur Jain, Associate Professor, Natural Basic Science Centre for Research & Development, Hiroshima University, Japan has delivered an invited talk from his expertise on **“Energy storage Materials-efforts at Hiroshima University”** on Thursday, 25th April, 2019 from 11:00AM to 12:00PM.

He has also visited our Central Analytical facilities. An interaction also has taken place with the Dr. Amit Jain, Director of international collaboration for future possibilities of collaboration and exchange program for faculty members, research scholars and BTech students.

I am very much thankful to Dr. Pushpendra kumar, Prof. Lalita Ledwani and Prof. Anoop Mukhopadhyay for supporting this activity.
