

Department of Physics

Industrial/Academic Visit - 2019

Date of visit: 08/11/2019 (Friday) to 11/11/2019 (Monday)

Coordinator: Dr. Uvais V N and Dr. Reenu Gill

Total Students: 18 (B Sc I/II/III Semester students)

Department of Physics has organized an industrial and academic visit to R I Nanotech, Rudrapur and Kumaun University, Nainital, respectively, for the UG/PG/PhD students of the department from 08/11/2019 (Friday) to 11/11/2019 (Monday). The location was finalized with mutual consent between students, faculty coordinators and the HoD.

RI Nanotech India is a division of RI Instruments and Innovations situated in sector IIDC, SIDCUL Rudrapur Uttarakhand, India. This company is engaged in developing / designing upper end research instruments in India. Few of their Indian designed instruments, like RAMAN, UV and Visible spectrometers are appreciated by scientific community and widely accepted across the globe. The company has a big plant for Graphene synthesis. Our students actively interacted with the CEO of the company, R.P. Joshi, and all the staff of the industry were impressed by the active discussion of our students. Students got hand-on training on the Raman spectroscopy which will enhance their practical knowledge. We had a discussion with the CEO for the scope of internship for our students and placement in the company.
