

Manipal University Jaipur  
Department of Physics  
Report of Workshop and Experiential Learning  
Date: 26<sup>th</sup> April, 2021 Time: 10:00 AM to 12:00PM  
Convener of the Event: Dr. Sushil Kumar Jain  
Co-Convener of the Event: Dr. Uvais, Dr. Satyapal Singh Rathore, Dr. Saikat

Department of Physics in collaboration with COSMOS – THE SCIENCE CLUB, Manipal University Jaipur, has organized a One Day Online Workshop on “**Prospects of Experiential Learning in Materials Physics**” on 26<sup>th</sup> April, 2021 from 10:00 AM to 11:30 AM for UG/PG and Research Scholars. A special talk by **Prof. Pankaj Poddar, Professor, Academy of Scientific and Innovative Research & Senior Principal Scientist, Physical & Materials Chemistry Division Council of Scientific & Industrial Research** was conducted, followed by Virtual Hands-on training on UV Visible, FTIR, PL Spectroscopy and SEM measurements. Out of 184 registered candidates a total participation of 103 was recorded from various parts of the country.

**Join us on 26<sup>th</sup> April 2021**  
**From 10:00 AM to 11:30 AM**  
**(Online Platform: MS Team)**

**Illustrious Alumni of Department of Physics**

**About the Department of Physics**  
The Department of Physics, School of Basic Sciences was established at Manipal University Jaipur in 2011. The academic programs of the department include BSc (Hons) Physics, MSc (Physics) and PhD. The department conducts teaching courses for students of engineering disciplines and graduate/postgraduate courses for basic science students with Physics as major subject. The department is also involved in conducting interdisciplinary studies and research, with engineering and other basic science departments courses.

**Student Achievements:**  
❖ Cleared JEST/JAM/GATE/GRE  
❖ Pursuing MSc/PhD in IIT/NIT/University of Delhi/University of Hyderabad/Universität Tübingen, Germany/Universität Hamburg, Germany  
❖ National and International Journal Publication of MSc (Physics) students

**CSIR National Chemical Laboratory**  
Council of Scientific and Industrial Research

Simple classification of experimental techniques based on what you want to learn about the material: TRUE VALUE ??

Thickness measurements (thin films)	AFM, STM, profilometer, high resolution - laser dilatometer (Michelson Interferometer type- resolution up to picometres, ellipsometer, cross-sectional SEM)
Thermal expansion	capacitance dilatometers (change in thickness), quartz crystal microbalance etc.
Heat capacity	Differential scanning calorimetry, PPMS etc.
Electrical conductivity (dc/ac)	STM, impedance spectroscopy, I-V measurement (two probe, four probe)
Thermal conductivity	Physical Property Measurement Setup (PPMS) etc.
Ligand-receptor binding energy/force	Atomic force microscopy, Isothermal calorimetry etc.
Magnetization	Vibrating sample magnetometer, SQUID magnetometer etc.

**CSIR National Chemical Laboratory**  
Council of Scientific and Industrial Research

Simple classification of experimental techniques based on what you want to learn about the material:

Crystal structure	Powder X-ray diffraction, Single crystal X-ray diffraction, electron diffraction, neutron diffraction, HR-TEM (imaging), XPS
Stoichiometry analysis bulk	Inductive coupled plasma, X-ray fluorescence, etc.
Elemental mapping	HAADF, Backscattering, EELS, Energy/wavelength dispersive spectroscopy, Auger spectroscopy etc.
Optical properties	Spectroscopic ellipsometry, static and dynamic photoluminescence, UV-visible absorption spectroscopy etc.
Chirality (handedness)	Spectroscopic ellipsometry, circular dichroism etc.
Morphology	Transmission electron microscopy, scanning probe microscopy, light scattering (dynamic, static), scanning probe microscopy etc.
Functional group - bulk measurement	Infrared spectroscopy, Raman spectroscopy etc.
Functional group- nanoscale	Nano-IR, Tip enhanced Raman, single molecule spectroscopy etc.
